Planning & Environmental Services

Snohomish County Public Works offers a variety of planning positions related to environmental impacts, transportation, and solid waste disposal. A variety of programs and services are managed by planners to oversee transportation initiatives and preserve and improve the health of Snohomish County’s resources.

Types of Jobs
• Transportation planners
• Environmental planners
• Biologists/habitat specialists

Site Locations
Many of these positions require some in-field work such as visiting mitigation sites, rivers, lakes, culverts, flood areas and more. Staff primarily work from the Snohomish County Campus in downtown Everett.
