Project Name: Larch Way/Logan Road and Locust Way Intersection Improvement

Description of Proposal: Snohomish County Public Works proposes to construct an urban single lane roundabout at the intersection of Larch Way/Logan Road and Locust Way. The intersection is currently all-way stop controlled. Each road has one through lane in each direction with no curb, gutter, ramps, crosswalk marking, or sidewalk.

The roundabout design includes a right turn slip lane for vehicles traveling from northbound Locust Way to eastbound Logan Road. The roundabout will have a 140-feet inscribed circle diameter. In addition to the roundabout, the roadway intersection improvements will include curbs, gutters, and a 10-foot shared use path for pedestrians and bicyclists. Stormwater facilities will be constructed to provide flow control and water quality treatment through infiltration.

Location of Proposal: The project site is located at the intersection of Larch Way/Logan Road and Locust Way in south Snohomish County, WA, northeast of the City of Brier. The project site is in Section 23, Township 27 North, Range 4 East, W.M.

Threshold Determination: Snohomish County Public Works has determined that this proposal will not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed Environmental Checklist and Design Report. This information is available at: https://snohomishcountywa.gov/3811.

Snohomish County Public Works has determined the requirements for environmental analysis, protection, and mitigation measures have been adequately addressed in the County’s development regulations and comprehensive plan adopted under Chapter 36.70A RCW, and in other applicable local, state, or federal laws and rules, as provided by RCW 43.21C.240 and WAC 197-11-158.
